ORGANIC THRIVE

# What it is

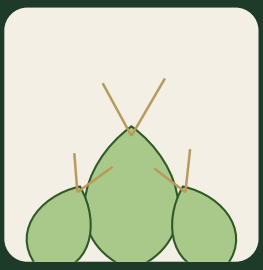
An all-natural, certified organic plant booster made with plant flavonoids. It helps plants switch on their own natural strength, so they grow stronger and handle stress better.

ORGANIC THRIVE

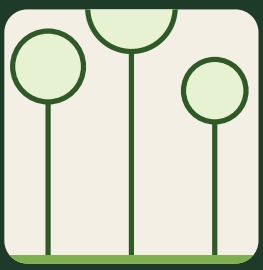
# What growers see

Bigger fan leaves

Stronger stems



Heavier buds



Frosty trichomes

ORGANIC THRIVE

# Feeding programme

## Shake well before use.

Apply once a week, from seed right through to harvest.

**Seeds / germination, plugs, light spray on cuttings**

0.2 mL per litre

about 0.75 mL per US gallon

**Vegetative**

1 mL per litre

about 3.8 mL per US gallon

**Flowering, right through to harvest**

2 mL per litre

about 7.6 mL per US gallon

**About 5 mL per plant over a full grow**

ORGANIC THRIVE

# Mixing guide

*mL of Organic Thrive to add*

| Water | Seeds, plugs, cuttings | Vegetative | Flowering |
|---|---|---|---|
| **1 litre** | 0.2 | 1 | 2 |
| **5 litres** | 1 | 5 | 10 |
| **10 litres** | 2 | 10 | 20 |
| **US gallons (amounts are approximate)** | | | |
| **1 US gal** (3.8 L) | 0.75 | 3.8 | 7.6 |
| **5 US gal** (18.9 L) | 3.8 | 19 | 38 |
| **10 US gal** (37.9 L) | 7.6 | 38 | 76 |

**Shake well before use.**

1 US gallon = 3.785 litres. 1 fl oz = 29.6 mL.

ORGANIC THRIVE

# How to mix

1.  **Shake well before use.**

2.  Measure with the 1 mL pipette or the graduated beaker.

3.  Add it to clean water and mix well.

4.  Apply once a week, from seed to harvest.

*One full 1 mL pipette is enough for 1 litre at the vegetative rate.*

ORGANIC THRIVE

# Sizes

## 5 mL tincture

**5 mL (0.17 fl oz)**

With a 1 mL graduated pipette

## Pint concentrate

**16 fl oz / 473 mL**

With a transfer funnel

## Quart concentrate

**32 fl oz / 946 mL**

With a graduated beaker
